

EVERMATIC 

Welding safety **PRODUCT CATALOGUE**

A pioneer in personal protective equipment for welders

Evermatic offers a vast selection of personal protective equipment for welding and spark-producing activities. Since the turn of the century, the company has grown to be one of Finland's best-known PPE manufacturers and experts in the field of welding safety.

The provision of high-quality products and services is at the heart of our business. This shows all the way, from manufacture to end-customer delivery. Our dealer network covers a number of European countries.

Our comprehensive and diverse range of personal protective equipment for professional use is the result of long-term, future-oriented work. The safety, performance and wearer comfort of our products are key considerations for us. Come and learn more about Evermatic products!

Accessories: Sweatbands	13
Protective clothing for welders	14-16

MASKIMO

EVERMATIC WELDING HELMET

The Evermatic welding helmet is designed for professional use in demanding environments. It provides excellent UV and spark protection for the face, neck and ears. Durable, but lightweight and elastic, it reduces neck strain.

The filter holder features a "peeking position", so the helmet does not need to be raised to check the weld. This speeds up work and makes nodding movements unnecessary.

The design of the front of the helmet reduces the build-up of carbon dioxide inside.

- » Filter size 60 x 110 mm
- » Filter shade DIN 9
- » Shaded inner protective lens with UV protection
- » CE / EN 175 certified
- » Made in Finland

Order No. 125 001

Spare parts:

- 115 001** Shutter Evermatic
- 116 001** Shutter's spring set
- 111 001** Headband
- 118 001** Sweatband
- 110 001** UV - filter 60x110 mm
- 103 001** Spatter glass polyc. 60x110 mm 1,0

MASKILO WELDING HELMET

The Maskilo welding helmet is designed for demanding professional use. It has been carefully designed to give excellent protection against spatter and arcs.

Made of polypropylene, Maskilo is lightweight and flexible, making it possible to work for prolonged periods of time without neck strain. Highly resistant to high/low temperatures and impacts, it suits even the most demanding applications.

The filter holder can be opened step by step and used in a peeking position.

- » Filter size 90x110 mm
- » CE / EN 175 certified
- » Made in Finland

Order No. 600 000

Spare parts:

- 115 004** Shutter Maskilo
- 116 002** Shutter's spring set Maskilo
- 611 001** Headband M10 with hearing protection fasteners
- 700 003** Sweatband, black velour
- 110 003** UV-filter 90x110 mm DIN 1,7
- 105 005** Spatter glass polyc., non-steaming, hard-coated 90x110 mm
- 105 002** Spatter glass polyc. 90x110 mm 1,0

EVERLUX WELDING HELMET

The Everlux welding helmet has a large, 145 x 155 mm UV visor on the front. It provides an extremely wide field of vision, makes it easier for the welder to move around, even in difficult conditions, and facilitates grinding.

The welding filter and the UV visor can be replaced without tools. Curved in design, the visor reduces heat and reflections and also efficiently deflects welding fumes.

- » Filter size 60x110 mm
- » Filter shade DIN 9
- » Visor size 145 x155 mm
- » Shaded UV visor
- » CE / EN 175 certified
- » Made in Finland

Order No. 135 001

Spare parts:

- 180 001** Lift visor Everlux
- 101 001** Welding glass frame Everlux
- 111 001** Headband
- 118 001** Sweatband
- 100 004** UV - visor Everlux
- 100 002** Spare front 1,0 bright
- 100 003** Spare front 0,5 bright

KOPPANEN WELDING HELMET

The Koppanen welding helmet is a good, low-cost basic model.

The helmet is made of fire-rated polypropylene for excellent protection against welding sparks and spatter, and it also offers good UV protection for the eyes.

A flip-up filter holder and a clear protective lens underneath make grinding easier. The front of the helmet is designed to reduce the build-up of carbon dioxide inside.

- » Filter size 60x110 mm
- » Filter shade DIN 10
- » Clear inner protective lens
- » CE / EN 175 certified
- » Made in Finland

Order No. 119 002

Spare parts:

- 121 002** Shutter Koppanen
- 116 001** Shutter's spring set
- 111 001** Headband
- 118 001** Sweatband
- 103 001** Spatter glass polyc. 60x110 mm 1,0

NAHKIS WELDING HELMET

The Nahkis welding helmet is particularly well suited for use where space is too limited for conventional helmets. Applications include repair workshops, installation work and industrial maintenance.

Made of genuine leather, Nahkis is breathable and highly adaptable to individual head shapes. It provides excellent spark and spatter protection across the entire head area.

Nahkis fits comfortably on the head with an elastic fabric head strap – no buckles or plastic headbands. The filter holder can be opened step by step and used in a peeking position.

- » For confined spaces
- » Filter size 60x110 mm
- » Filter shade DIN 9
- » Shaded UV visor
- » CE / EN 175 certified
- » Genuine leather

Order No. 145 001 with a neck protector

Order No. 145 002 without a neck protector

Spare parts:

- 115 002** Shutter Nahkis
- 116 001** Shutter's spring set
- 110 001** UV-filter 60x110 mm DIN 1,7
- 118 001** Sweatband
- 103 001** Spatter glass polyc. 60x110 mm 1,0

EVOLVE BASE WELDING HELMET

The Evolve welding helmet has been designed with the user in mind. It provides excellent protection and comfort for professional welders. Evolve Base has a traditional welding filter.

Evolve is shaped to deflect flying sparks, and the 150-mm-wide grinding visor offers a great field of vision when no darkening is required.

The filter holder can be moved away onto the top of the helmet for added comfort. As an advantage over conventional opening mechanisms, this optimises the centre of gravity, increases the field of view and reduces the amount of space required by the helmet.

- » Filter size 90x110 mm
- » Grinding visor 90x150 mm
- » CE / EN 175 certified
- » Made in Finland

Order No. 400 000

Spare parts:

- 111 008** Welding lid assembly
- 111 007** Screw set, Evolve
- 111 001E** Headband
- 700 003** Sweatband, black velour
- 105 005** Spatter glass polyc., non-steaming, hard-coated 90x110 mm
- 105 002** Spatter glass polyc. 90x110 mm 1,0
- 191 000** Grinding visor Evolve FT

MASKILO / ADC AUTO-DARKENING HELMET

The Maskilo and Maskilo ADC auto-darkening helmets can be used for practically all welding as well as for plasma cutting and grinding. Equipped with solar cells, the filter cartridge is automatically activated by light, and neither an on/off switch nor batteries are necessary.

Maskilo ADC uses state-of-the-art technology and guarantees uniform shading, without corner reflections, across the entire cartridge in all welding positions. Controls: shade 9–13, sensitivity, and slow/fast dark-to-light delay.

- » Filter size 90x110 mm
- » Optical class 1/1/1 (ADC 1/1/1/2)
- » Control options in models V9-13DS and ADC
- » CE / EN 175 certified
- » Made in Finland

EVERMATIC AUTO-DARKENING HELMET

Evermatic is a fixed-shade auto-darkening helmet. At the strike of an arc it darkens automatically to DIN 10 or DIN 11, depending on the model.

Evermatic is excellent for repair and maintenance work, often performed using the SMAW or MIG/MAG technique.

Equipped with solar cells, the filter cartridge is automatically activated by light, and neither an on/off switch nor batteries are necessary. The Evermatic auto-darkening helmet can be combined with a PAPR, hard hat or hearing protectors.

- » Filter size 60x110 mm
- » Filter shade DIN 10 or DIN 11
- » Light state DIN 3
- » Optical class 1/1/1
- » CE / EN 175 certified

Clean Air powered air-purifying respirator (PAPR)

CLEAN AIR BASIC 2000 DF POWERED AIR-PURIFYING RESPIRATOR (PAPR)

Clean Air Basic 2000 Dual Flow is an electric-motor-driven, battery-powered fresh air unit. It is approved for use with Evermatic PAPR helmets and lightweight CA facepieces.

The unit is equipped with a type P3 filter that effectively removes air-borne impurities and delivers filtered air into the welder's headpiece. The P3 filter is effective against solids and liquids, including dust, mist, welding fumes, microorganisms and radioactive particles.

A blower provides a flow of air that helps to keep the welder cool, even in hot conditions, and prevents the welding filter from misting. The blower is worn on the waist using a padded belt, large in width for great support and added comfort. A fresh air unit guarantees a high level of protection, even in demanding environments.

- » Weight 900 g
- » Easy to use
- » Two airflow modes: TURBO (210 l/min) and ECO (160 l/min)
- » Operation time 6–9 h per charge depending on the mode
- » Certified to EN 12941 TH1

Order No. 800 000XC (Clean air basic 2000 DF Motor unit, hose, support belt and a charger)

Order No. 800 000HX (Clean air basic 2000 DF Motor unit)

Accessories:

- 700 030** Charging device automatic CA-basic 2000
- 800 017** Battery CA Basic DF NiMH
- 700 060BB** Hose CA 2000 bayonet-bayonet
- 150 003** Hose cover, spark resistant
- 710 092** Support belt, wide
- 800 015** Pre-filter, 10 units
- 800 020** Smell filter, 10 units
- 800 010** P3 fine dust filter

CA-1 FACEPIECE

The CA-1 short facepiece can be used in combination with the Clean Air Basic 2000 DF powered air-purifying respirator. The air hose is connected to the back of the facepiece by an easy-to-use bayonet joint.

The large visor provides a wide field of vision, and multiple adjustment options ensure perfect fitting. Besides respiratory protection, CA-1 protects the face and hair against lightweight spatter.

A good circulation of air, an exhaust vent for exhaled air and anti-fog treatment make sure the visor stays clear. The lightweight CA-1, ideal for prolonged and daily use, is available in orange and blue.

- » Weight 180 g
- » Clear visor
- » Certified to EN 12941

Order No. 710 100 (orange)
Order No. 710 100B (blue)

CA-2 FACEPIECE

The CA-2 long facepiece can be used in combination with the Clean Air Basic 2000 DF powered air-purifying respirator. The air hose is connected to the back of the facepiece by an easy-to-use bayonet joint.

The large visor provides a wide field of vision, and multiple adjustment options ensure perfect fitting. Besides respiratory protection, CA-2 protects the head, neck, shoulders and chest against lightweight spatter.

A good circulation of air, an exhaust vent for exhaled air and anti-fog treatment make sure the visor stays clear. Available in orange and blue.

- » Weight 250 g
- » Clear visor
- » Certified to EN 12941

Order No. 710 200 (orange)
Order No. 710 200B (blue)

CA-3 FACEPIECE

CA-3 is a rigid shield for respiratory and spatter protection with a great field of vision. It can be used in combination with the Clean Air Basic 2000 DF powered air-purifying respirator. The air hose is connected to the back of the facepiece by an easy-to-use bayonet joint.

CA-3 provides eye protection to EN 166 and respiratory protection to EN 12941. The large visor provides a wide field of vision, and multiple adjustment options ensure perfect fitting.

A good circulation of air, an exhaust vent for exhaled air and anti-fog treatment make sure the visor stays clear. CA-3 is excellent for use where a lightweight shield is required for facial and respiratory protection.

- » Weight 520 g
- » Clear visor
- » Certified to EN 12941 and EN 166

Tilaus No. 710 300

CA-10 FACEPIECE

The CA-10 mid-length facepiece can be used in combination with the Clean Air Basic 2000 DF powered air-purifying respirator. It features a double seal to ensure proper tightness.

The large visor provides a wide field of vision, and multiple adjustment options ensure perfect fitting. Besides respiratory protection, CA-10 protects the entire head area against lightweight spatter.

A good circulation of air, an exhaust vent for exhaled air and anti-fog treatment make sure the visor stays clear. The lightweight CA-10, ideal for prolonged and daily use, is available in orange and blue.

- » Weight 225 g
- » Clear visor
- » Double seal
- » Certified to EN 12941

Tilaus No. 711 000 (orange)
Tilaus No. 711 000B (blue)

EVERMATIC AIR WELDING HELMET

Evermatic Air is a lightweight welding helmet with respiratory protection for professional use. It comes fully assembled, complete with fabric covers and an air duct. Positive pressure maintained inside the helmet prevents harmful particles from entering the breathing zone. The helmet protects the wearer against particulates, such as solid and liquid aerosols, welding fumes, and dust.

Evermatic Air is based on the Evermatic welding helmet.

Can be combined with hearing protectors.

- » Filter size 60x110 mm
- » Made in Finland

Spare parts:

- 155 006** Air channel, Evermatic Air
- 116 005** Headband with an air channel
- 149 003** Gasket set, Evermatic Air
- 150 003** Hose cover, spark resistant
- 700 003** Sweatband, black velour

Order numbers:

Masks without a PAPR unit

- 160 003** Evermatic Air 60x110 mm DIN 9

125 005 Evermatic hard hat model (adapter)

125 006 Evermatic Auto. DIN 10 hard hat model (adapter)

125 007 Evermatic Auto. DIN 11 hard hat model (adapter)

WELDING FILTERS 60 x 110 mm

Traditional welding filters with high heat resistance. Excellent UV and IR protection.

» Size 60 x 110 mm

Order numbers:

104 001 DIN 8
105 001 DIN 9
106 001 DIN 10
107 001 DIN 11
108 001 DIN 12
109 001 DIN 13

WELDING FILTERS 90 x 110 mm

Traditional welding filters with high heat resistance. Excellent UV and IR protection.

» Size 90 x 110 mm

Order numbers:

104 014 DIN 8
104 011 DIN 9
104 016 DIN 10
104 012 DIN 11
104 013 DIN 12
104 017 DIN 13

AUTO-DARKENING FILTERS 60 x 110 mm

Automatic darkening. With solar cells, so neither batteries nor an on/off switch are necessary.

» Size 60 x 110 mm

Order numbers:

131 004 Auto-darkening filter DIN 10
136 004 Auto-darkening filter DIN 11

AUTO-DARKENING FILTERS 90 x 110 mm

Automatic darkening. With solar cells, so neither batteries nor an on/off switch are necessary.

Variable sensitivity, shade and delay control in models V9-13DS and ADC.

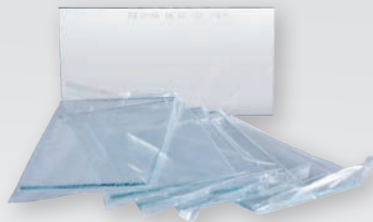

» Size 90 x 110 mm

Order numbers:

132 005 Auto-darkening filter DIN 10
132 006 Auto-darkening filter DIN 11
132 007 Auto-darkening filter V9-13DS
136 004 Auto-darkening filter ADC

SPATTER LENSES

Clear spatter lenses for the protection of both traditional and auto-darkening filters. Recommended to be replaced at least once a week or immediately if damaged.

Order numbers:

Spatter lenses size 60 x 110 mm

- 102 001** Spatter lens, glass
- 103 002** Spatter lens polycarbonate 0,5 mm
- 103 001** Spatter lens polycarbonate 1,0 mm
- 103 003** Spatter lens polycarbonate 1,5 mm

Spatter lenses size 90 x 110 mm

- 105 004** Spatter lens, glass
- 104 015** Spatter lens polycarbonate 0,5 mm
- 105 002** Spatter lens polycarbonate 1,0 mm
- 105 003** Spatter lens polycarbonate 1,5 mm
- 105 005** Spatter lens polycarbonate 1,0 mm non-steaming and hard-coated

Other spatter lenses

- 103 004** Spatter lens polycarbonate 51 x 107 x 1,0 mm (Used as 90 x 110 mm auto-darkening filter inner protector)
- 104 004** Spatter lens polycarbonate 50 x 105 x 1,0 mm

EVERMATIC MAGNIFYING LENSES

Evermatic welding helmets can be equipped with a magnifying lens to get a closer look for greater ease of working.

The lenses are made of lightweight polycarbonate with scratch-resistant hardcoat.

Thin edges make fitting easy.

» Size 51 x 108 mm

Order numbers:

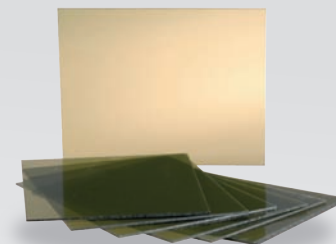

- 110 013** Magnifying lens 1.0 diopt. magnification about 25%
- 110 010** Magnifying lens 1.5 diopt. magnification about 35%
- 110 011** Magnifying lens 2.0 diopt. magnification about 50%
- 110 012** Magnifying lens 2.5 diopt. magnification about 65%
- 110 014** Magnifying lens 3.0 diopt. magnification about 75%

UV PROTECTION LENSES

UV protection lens EN 1.7 for helmets with a filter holder that can be used in a peeking position.

Order numbers:

- 110 001** UV-filter 60 x 110mm
- 110 003** UV-filter 90 x 110mm
- 101 000** UV-filter 30 x 110mm

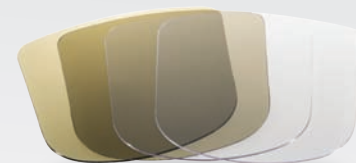

EVERLUX VISORS

Front protective visor for Everlux helmets. Fits all Everlux models, available in clear or shaded versions.

Order numbers:

- 100 003** Safety visor clear 0,5 mm
- 100 002** Safety visor clear 1,0 mm
- 100 004** UV-filter DIN 1,7

EVOLVE VISORS

Clear polycarbonate grinding visor.

Order numbers:

- 191 000** Grinding visor Evolve base FT
- 191 001** Grinding visor Evolve auto BT

MASK SPRAY

Keeps helmets and visors clear. Leaves an antistatic coating that repels dust and dirt and prevents misting.

» 220 ml

Order number:

- 172 000** Mask spray

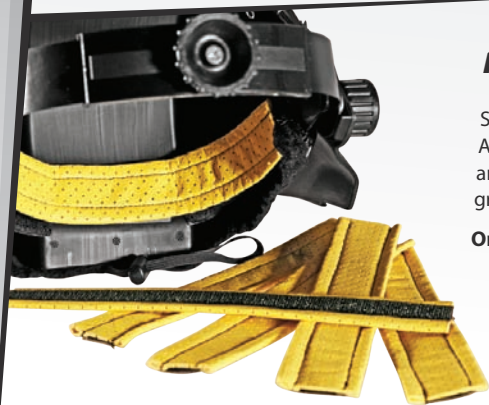

Accessories: Sweatbands

SWEATBAND

To be attached to the headband of a welding helmet. Quick and easy to replace. Made of synthetic chamois for great comfort.

Order No. 118 001

MASKILO M10 AIR SWEATBAND

Sweatband for the Maskilo M10 Air helmet. Attachment to the headband, with Velcro for quick and easy replacement. Made of synthetic chamois for great comfort.

Order No. 118 002

VELOUR SWEATBAND

Attachment to the headband of a helmet, with Velcro for quick and easy replacement. Soft and comfortable against the skin.

Order No. 700 003

Protective clothing for welders

FABRIC WELDING SLEEVES

Made of flame-retardant Proban. Excellent protection against sparks, spatter and heat.

Short sleeves have elasticated ends; long sleeves are fastened with clips.

Available in pairs.

Order numbers:

152 009 Sleeve cover short 40 cm

152 010 Sleeve cover long 70 cm

LEATHER WELDING SLEEVES

Made of extremely durable split leather for maximum protection against sparks, spatter and heat.

Short sleeves have elasticated ends; long sleeves are fastened with clips.

Available in pairs.

Order numbers:

152 004 Sleeve cover short 40 cm

152 005 Sleeve cover long 70 cm

NECK COVER

Made of flame-retardant Proban. Excellent protection for the welder's neck, cheeks and ears. Attachment to the headband of a welding helmet.

Order No. 117 002

COMFORT NECK COVER

Made of flame-retardant Proban and elastic Protex. Excellent protection for the welder's neck, cheeks and ears. Attachment to the headband of a welding helmet.

The elastic Protex provides a comfortable face fit. The size of the face opening can be adjusted.

Order No. 152 013

LEATHER NECK COVER

For demanding applications. Attachment to the edge of a welding helmet by an adaptable seal. Compatible with all Evermatic helmets and most other helmet brands.

Excellent protection against sparks.

Order No. 117 005

EVERMATIC LEATHER APRON

Made of split leather, hard-wearing and durable in use. Excellent protection against sparks, spatter and heat.

Easy to put on and take off with handy quick-release buckles on the neck and waist straps.

Order No. 152 008

WELDER'S HOOD

Made of flame-retardant Proban. Excellent protection for the welder's head and neck. Effectively prevents the ingress of sparks and spatter.

Easy to put on and take off with snap fasteners on the front.

Order No. 152 003

COMFORT HOOD

Containing elastic Protex, comfortable against the skin and easy to put on. No snap fasteners.

Made of flame-retardant fabric that effectively prevents the ingress of sparks and spatter.

One size fits all.

Order No. 152 012

EVERMATIC WELDING BLANKET

Made of heat and spark resistant material. Excellent protection against welding and grinding sparks, slag, and molten metal.

With eyelets at both ends, suitable for use as a welding curtain or partition. Heat resistant up to +550 °C. Standard size 100 x 180 cm; other sizes available to order.

Order No. 152 020 (100 x 180 cm)

EVERMATIC WELDING GOWN

Made of flame-retardant fabric. Easy to put on and take off.

Two large pockets on the front for gloves or tools and open back for ventilation.

Quick-release buckle on the waist band. Available in two sizes.

Order No. 152 007 (M/L)

Order No. 152 011 (XL/XXL)

EVER FACE-SHIELD

A wide face-shield with head and neck protection. Extremely lightweight but with a sturdy frame, suitable for use even in tough conditions. Complete with a forehead cover.

The clear polycarbonate visor is quick to replace without tools. Hearing protectors, if any, can be slipped off to have a conversation or break.

Screw-adjusted headband.

Order numbers:

700 000 Ever face-shield

700 010 Ever face-shield with a Bilsom hearing protector

700 020 Ever face-shield with a Electro radio hearing protector

Spare parts:

700 001 Visor (Ever)

700 002 Headband black (Ever)

700 003 Sweatband, black velour

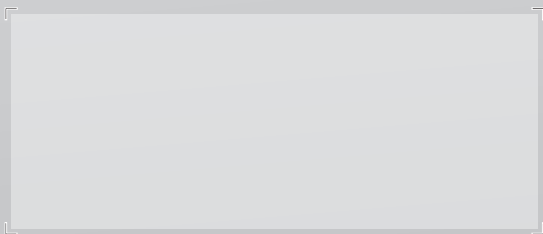

700 004 Bilsom Thunder hygiene set

700 005 Electro hygiene set

700 009 Screw set Ever

700 718 Hearing protector Bilsom Thunder helmet

700 798 Radio hearing protector Electro helmet
